PROJECTS

Spacetastic Science

GitHub Repo: <https://github.com/sadapannord/science-project.git>

Deployed Site: <https://science-science.herokuapp.com/>

- This application is focused towards those interested in learning about the solar system.
- The primary role on this project was to use mongoose to create and update a database for user information.
- This project used React, CSS, mongoose, and axios.

Know Your Music

GitHub Repo: <https://github.com/brachtco/know-your-music.git>

Deployed Site: <https://brachtco.github.io/know-your-music/>

- This application allows a user to type in a band's name, and learn a bit about the artist.
- The primary role was to add CSS styling, as well as to ensure the search function worked.
- This project used HTML, CSS, and JavaScript, with Materialize being the CSS framework used.

Newtricious

GitHub Repo: <https://github.com/ZeroBitzz/Newtritious.git>

Deployed Site: <https://agile-castle-97936.herokuapp.com/>

- This application allows a user to search for relevant recipes based on their dietary restrictions.
- The role on this project was to create a MySQL database. The database was created using Sequelize as well as HTML and Handlebars.
- This project used HTML, CSS, Node.js and JavaScript. The templating language Handlebars as well as the ORM Sequelize were also used.

EXPERIENCE

Assistant Manager

December 2016 – Current

BioLife Plasma Services

American Fork, UT

Created many systems to keep the center running smoothly, from developing a new system for tracking attendance, to establishing an automatic ordering template.

- Promoted 5 times in 6 years due to work ethic and the abilities to multitask and communicate.
- Selected to have specialized training as plasmapheresis machine technician due to troubleshooting skills.
- Selected to receive training as the center's designated Yellow Belt due to demonstrations of critical thinking..

Ops Rep 2

November 2015-September 2016

TransFirst

Broomfield, CO

Duties included terminal coding maintenance, new terminal coding, quality assurance, and data entry.

- Created excel spreadsheets in order to track progress, wanting to compare both learning and productivity against other reps.

Temporary Staff Driver

May 2011-November 2015

University of Colorado Boulder Parking and Transportation Services

Boulder, CO

Duties included checking vehicles for safety, driving students to and from campus, and driving charters.

- Promoted from Student Driver to Lead Student Driver due to excellent communication and organization abilities.
- Promoted to Temporary Staff Driver due to dedication to safety and history of excellent job performance.
